We had some good rapping going on! Our first NASBE RAP Session just concluded today from 3-4 pm EST. Several requested that this session be recorded; however, unfortunately I was not able to get this done. Here is some of what you missed and hopefully you will be able to join us in the future:

- Business and Marketing teacher shortages
- Business Education teacher certifications/licensure
- Business and Marketing teacher prep programs
- Alternative licensure for Business Education teachers
- Business Education program accreditation: [Accreditation](#)

With 10 participants rapping, a lot of good information was shared. Thank you to all who were able to join us.
